## **THE LAND OF MYSTIC NIGHTS**

There was a land of mystic nights  
There young virgins sought to go  
They frolicked through the purple haze  
Where the fiercest dragons dared not go

Sighs were heard from time immobile  
As blood red skies overcame even the noble  
And a passion of sorts prevailed  
Even overcoming the purpose for being there

Love seeking love reeking  
The women returned to home  
Where time flies over gray skies  
And true love is not known

## **I WANT TO BE WITH YOU**

I want to be with you  
I want to see you  
Every day, every day, every day

On this morning, I can feel your heart

I want to walk with you  
I want to talk to you  
Every day, every day, every day

On this morning, I can feel your heart

## **MORNING**

Come out you morning stars  
Billowy white clouds  
Birds that sing  
Morning

Come out you rivers that run  
Frosty winter  
Precious green plant  
Morning

Come out you little lamb  
Dragonfly  
Cock that crows  
Robin red breast  
Morning

## **IN THE BEGINNING**

We often sang together  
Bird-like symphonies  
Likewise drank together  
From the spring of harmony

Alive with love we shared our needs  
Never more than the flowers or trees  
A little water, a little seed  
Listening to the wind and sea

Bring shelter to your lost and strayed  
Bring back remembrance of those days  
Where nothing was lost and nothing gained  
As in the beginning, as in the beginning

Dancing around the fire chanting  
Manifesting life's embrace  
Water flowing, air bestowing  
The spirit of our earth universe

All and all in ecstasy  
Being our quality  
Heaven sent glories be  
As in the beginning, as in the beginning

## **THE POND OUT BACK**

Quack, quack-quack, quack-quack  
I hear those ducks fussing on the pond out back  
Roll, tumble roll, ocean roll  
I hear the waves pounding on the shore below

Now I know there's a reason  
Why you feel so bad  
Seems the Lord upped and left you  
Out of the promised-land

Quack, quack-quack, quack-quack  
Can't you hear your Lord in those ducks out back?  
Roll, tumble roll, ocean roll  
I feel my Lord way down deep in my soul

Now the reason that I'm singing  
The reason that I'm free  
The reason that I'm singing  
Is cause my Lord loves me

Roll, tumble roll, ocean roll  
I feel my Lord way down deep in my soul  
Blow, wind whistle sing to me  
I'm living in a world, living in a world, living in a world of truth and beauty

## **TIME TO SING TIME TO LISTEN**

Time to sing, time to listen  
I'm very much impressed  
With the notes that we're making  
Trying to hear all the rests

Like a cat on the piano  
And the echo through the hills  
The sound of a rolling river  
Flows into a tranquil pool

The birds come to listen  
To the sounds from the heart  
I in turn intently hear  
Their melody that calls

Everybody's got the rhythm  
I hope you understand  
Come on, sound the trumpet  
You're holding in your hand

Come let's sing together  
Everybody knows the song  
Time to sing, time to listen  
To the sounds from the heart

## **GLAD TO SEE A FRIEND**

I'm singing about a feeling  
A look in someone's eye  
About thoughts of giving  
And finding ourselves in time

After living in loneliness  
Fear and hard times  
Finding a beautiful someone  
Who loves just who you are

About the pains of childhood  
Frustrations beginning must end  
To look into a mirror  
And glad to see a friend

Lots of pleasant memories  
Can hide in a lonely mind  
Wanderings of happiness  
Just looking for a place to find

So, I hope you get the story  
Of a world that's coming alive  
About thoughts of giving  
And finding ourselves in time

## **YOU'VE GONE AND DONE IT**

You've gone and done it  
Taken me beyond myself  
Just letting me be  
To melt into your embrace

Time will wait for us  
Till we're through the gate  
Blissful ones returning now  
Back from whence they came

Child's eyes looking through you  
Oh, a wonder to be seen  
There I am deep inside you  
Just wanting to be free

Love me darling 10,000 ways  
Fill my heart, I hear you say  
Take me on my journey's way  
Home to your heart  
To my special place  
Home to your heart  
To my special place

## **LET'S CALL IT EVEN**

With a look of love  
I'm seeing for the first time  
With thoughts so fine  
No words could explain  
So I try to find a melody  
To help you understand  
Just what I'm feeling  
What it means to live again

With no temptations  
I want to know you  
Together we can understand  
Thankful for your company  
The friend I never had  
I'll tell all the world, uh huh, oh yeah  
What it means to love again

Yes, I'm seeing past all the heartaches  
Laid on by innocent hands  
When the truth is found out right  
There'll be a holiday  
We're all here together  
Living, we're just living for that day

## **WRAP ME UP IN KINDNESS**

Tell all the world  
Catch me if you can  
Wrap me up in kindness  
You're holding in your hand

I hear your heart beating  
It sings a song with mine  
I'm not deceiving you  
Man it'll blow your mind

I listen to children singing  
Watch the flowers bloom  
Waiting for my lover  
Who comes when she will

Tell all the world  
Catch me if you can  
Wrap me up in kindness  
That you're holding in your hand

## **EMPTY FRAMES**

We are empty frames  
With minds of ether light  
Rainbow sounds in our ears  
Touching deep our hearts

Oh conditioned spirits  
Please heed the call  
Empty out your lives  
On a plain of truth  
And we find ourselves alive

We are empty frames  
To perceive what is full  
Give and take  
The love we make  
Becomes a living pool

So, I love you  
Oh, I love you

Morning has its moments  
Resting in the sun  
Find your love before the night  
Time passes on

We are empty frames  
Filled with no regrets  
Just a need to be loved  
To love and not forget

Each time one is carried  
To the celestial station  
The empty frames come together  
It's a celebration

## **CRAZY SON**

I heard my mother crying  
Over her crazy son  
Who raped her fertility  
Trying to play God

With metal and fire  
He soon lost all control  
The animals now gone  
A dark cloud hides the sun

Stuck in his self perception  
Too proud to cry  
Looking never seeing  
Tell me the reason why

Well, if you taste pure water  
And walk on sacred land  
Free your mind from selfishness  
To hold your mother's hand

Ask the trees for wisdom  
Ride a bird so high  
Feel what is truly real  
It's so good to cry

Hope we have a vision  
Before we make an end  
To a life eternal  
In a promised land

## **THERE'S ALWAYS SOMETHING NEW**

That's the way it goes my friend  
Sometimes your dreams come true  
If we can see beyond our schemes  
There's always something new

No boundaries in this land  
No limits to the sky  
Miraculous jeweled thoughts  
Of his love divine

Some are needy, some are greedy  
Reaping what they sow  
Now's the time for knowing and showing  
Just how much we can do

To live and learn and know respect  
For our life's a tool  
If we can see beyond our schemes  
There's always something new

Hope all is in your heart  
Hope your mind be still  
Hope for beauty in your acts  
The world awakens soon

## **FUEL FOR THE SHIP**

My furthest imaginings sail out  
Leaving my body behind  
The raven cries nevermore  
Off into the night

So you know what is real  
A pleasant place to go  
Where is the fuel for the ship?  
Where is the energy now?

Breath of holiness  
Enter our vessel's well  
Light of eternity  
Guide our mind's eye  
One pointed concentration  
Free us from desire

Moving through time and space  
Gravity's lost its hold  
Egyptian urns, spinning discs  
Heaven, earth and hell

On the verge of celestial sound  
Becoming ethereal spheres  
Let him who has eyes see  
And him who has ears hear

The only thought  
We might have had  
No longer takes control  
There is no separation now  
Absorbed in the sea  
Of the eternal sound

## **MOUNTAINS OF THE SUN'S DOMAIN**

Mountains of the sun's domain  
Are very dry without rain  
The rocks and dust greet our feet  
Even more barren with nothing to eat

The birds seem to do alright  
And the Indians do delight  
But for gringos without totality  
There is no reality

We climb with our minds to the greatest heights  
There already before the night  
But with bodies pale and weak  
It is by the river that we sleep

So here we sit part of the way  
In the early hours of the day  
Enjoying the view on high  
As we see the truth implied

It was easier today  
For part of the lessons were learned yesterday  
The rocks and dust greet our feet  
Even more barren with nothing to eat

## **THERE'S ALWAYS SOMETHING NEW**

That is the way it goes my friend  
Sometimes your dreams come true  
If we can see beyond our schemes  
There's always something new

To live and learn and know respect  
For our water and air  
To grow together in our land  
With love and truth our tools

We are here there is no doubt  
And now the time is here too  
For knowing and showing just how my friend  
Just how much we can do

Some are needy  
Some are greedy  
Some are reaping what they sow  
In time we shall believe the one

To live and love and know respect  
For our life's a tool  
If we can see beyond our schemes  
There's always something new

## **OPEN EYES**

Now I look with open eyes  
Straight out into the truth  
I find the love within our hearts  
The equality in me and you

People the same all over  
Living out their dreams  
Some are sleeping, some awake  
Often the blind can see

The words sound different  
The song remains true  
Melody, rhythm, and time  
Moving heads and tapping our feet  
Smiles going all around

A handshake there, a soft hello  
Melt into goodbyes  
Looking deep into one another  
For the peace in our minds

## TO YOU MY FAMILY

Memories of fire chanting  
Colors flash in patterned form  
Visions of the life eternal  
Now my family is one

Sing my brother to the drum  
Drum my sister to the rattle's shake  
Feel my water brothers, look  
The medicine bird has wings

Blue the color, eye remember  
Pass the rattle, says the road chief  
Now another song is singing  
Glory to the newborn king

Cedar smoke awakes the weary  
Blind eyes now that see  
A wish, a dream, a thought now spoken  
Soon to manifest upon the screen

The family steadily grows in number  
Fasting and prayer lay to waste  
Evil, greed and negativity  
Gone in the fire, be gone, today

Grandfather sends his greetings  
Earth Mother tells her ways  
We all look out on together  
Feeling the sacredness of the day

## **ALAHAMBRA**

Pregnant woman round like sun  
Makes me very happy and warm  
The whole earth family laughs  
At the children playing their games

Holding hands jumping round  
Seems so very exciting  
Staring off into the sky  
Can be so inviting

What do you call yourself?  
Alahambra, my mother named me  
You remind me of myself  
When I was a child at the sea

Having so many playmates, you're the lucky one  
Holding hands and singing  
Something captures the little one  
As she gazes at the trees  
There's a sound in the breeze

Welcome, welcome, children come  
Fill the empty spaces  
Time and again sing and laugh  
Make an old world happy  
Welcome, welcome, children come  
Fill the empty spaces  
Time and again sing and laugh  
Make an old world happy

## JUSTICE LIKE AN ARROW SHOT

Justice like an arrow shot  
Pierces my balloon  
Emptying the conceptions  
Born from scorn and ridicule

Freeing myself free from ties  
Of all the rationalizations  
Stepping back to see what is  
The power to overcome frustration

My time is here to realize  
All that I might be  
To choose with deliberation  
And save a soul born to be free

Climbing up a sacred ladder  
To a more perfected status  
Steps alone that I must make  
To reach the elevation

Good health, a strong will  
Enables my freedom  
To unfold with certainty  
Upon the plains of realization

Slow as you go or fast as you make it  
Everyone on their way home  
To a celebration

Golden one, I'll sing the song  
Of heavenly incarnation  
It's your birthright for happiness  
An end to all negation

Standing naked at the sea  
I truly do remember  
All the love from which I came  
And the peace that I'm after

Respect for myself  
Equal for my brothers  
Self-condemnation leave me now  
Bring on no self conception

Who convinced me I was ill  
To lack such conviction  
We are one beneath the sun  
All beauty, love and perfection

## **THE WAY IT IS**

I like those simple songs  
Untouched by worried minds  
Written about the way it is  
A family meek and mild

With thought and consideration  
Melody, rhythm and time  
Blue skies and green pastures  
Animals, man, and God

Love and dependency  
Families spending their lives  
Growing flowers, making children  
Playing, praying for time

Love and dependency  
People spending their lives  
Growing flowers, making children  
Playing, praying for time

## **STAR OF JUDEA**

Happy are we who do believe  
Truly grateful for what we receive  
Always willing to touch the shore  
Or sail to the farthest realm  
Followers of truth like innocent sheep  
Lions of freewill to evil's ways  
Born to live out our lives  
In infinite, boundless love

As we grow in wisdom's light  
Balanced in a harmonious life  
Stars for the world to see  
The trail to heaven's gate  
Lead us onward path of right  
Tempt us not base desires  
Free to create a heavenly glow  
And one with all we see

Do the task and it shall be done, boundless love, infinite energy

## **SPIRIT IS SPIRIT AND FLESH IS FLESH**

Be careful in what you take  
It is more sacred to give  
Don't mix the foods on your plate  
So you know just what it is

Keep a positive outlook bright  
Respect the power of his might  
Use your will to reach the heights  
Of boundless eternal love

Expand the places in your heart  
To hold the universal kin  
Be careful in what you ask  
It is more sacred to give

Spirit is spirit and flesh is flesh  
It's a delicate pose  
One embraces the all in all  
It's so good to know  
To your own heart be true

Use your gifts  
The more you have been given  
The more is expected of you  
Do not be deceived

## **HOPE**

Hope all is well with you  
Hope you're loving yourself  
Hope your conscience is at peace  
Hope your way goes well

Hope for love in your life  
Hope your dreams come true  
Hope you have a loving wife  
Who gives you the respect you're due

Hope your friends are many  
Hope your children do  
Live a life of plenty  
Peace to me and you

## **MY ICE CREAM PRAYER**

I have seen a sight  
Of radiating joy  
Respect for the gifts  
In the eyes of a boy

Eyes closed timely  
With the opening of the soul  
My little boy whispers a song  
To someone above

With a bowl of ice cream  
A door has opened wide  
Bringing home a little one  
To his Father's laughing smile

Stirring my feelings  
How good to be alive  
The gifts we do receive  
In these blessed times

It was an ice cream prayer  
Opened our hearts wide  
To the goodness of the day  
And all the love implied

## **TAI CHI CHUAN**

Dancing waves take form  
Only to merge in the absolute  
Is there a grain of sand on the shore  
That occupies not its own place  
There is no escaping the motion  
Of water and wind  
No desire but to leave our shell  
And move with the stars  
On, on, on

## **TAKE YOUR TURN**

Unfurled wanings give light  
To a hateful side of nonsense solitude  
Beside a heart of stupendous dependency  
On our way home  
Take your turn  
On a road undefined  
Longing to see you  
Cry for joy

## **DOWN A ROAD ALREADY GONE**

Happy days to sing a song  
Join hands and dance along  
Down a road already gone  
Created day by day

Saw a vision of myself  
Engrossed in loving matter  
Timeless works of servitude  
Seeking what I'm after

Lost my self's restless mind  
In doing what was needed  
Lots of love to you  
As the ground gets seeded

## **A CHILD CAME TO WONDER**

A child came to wonder  
That's all, that's all  
You and I forgot to see  
But what of another

Now the cold hard edges  
Cover the illusion's dream  
Utter, utter reality  
To damage a baby's dreams

## **PAINTED SHIPS**

Come gather round little children  
Sit upon my knee  
And I'll tell you a tale about the painted ships  
Sailing on the sea

Painted ships out on the water  
Sailing very free  
Hey, riding with the sun and wind  
On to what will be

The moon and stars guide you  
On your way  
Ride, ride, ride the tide  
To a brighter day

Well, sometimes I'm sad, sometimes I'm glad  
And I know who I am  
I'm looking for a woman's touch  
I'm looking for a friend  
Yes, and captain of my ship  
Till I reach the end

Round and round and round and round  
You can't escape the wheel  
I'm singing, singing, praying  
Lord, I hope you know how I feel

Painted ships out on the water  
Sailing very free  
Riding with the sun and wind  
On to what will be

Sometimes I'm sad, sometimes I'm glad  
And I know who I am  
I'm looking for the grace of the Lord  
I'm looking for a friend  
Yes, and captain of my ship

Till I reach the end

## **FACE THE DRAGON WITH LOVE**

Who wants to play this game  
Of knighthood and chivalry  
Who will stay amidst his reign  
Giving solely to the one above

Fertile is the seed of truth  
And blessed is the sun  
Still the heavenly waters come  
Sprouting seeds of love

Who will stay in this place  
Alive with flower and thorn  
Who will face the dragon with love  
Caring for the beautiful flower

Fertile is the seed of truth  
And blessed is the sun  
Still the heavenly waters come  
Sprouting seeds of love

## **SOOTHE ME LOVE**

Frosty winter dreams  
Held melting in your hand  
Greet me on another day  
Against the rocks and sand  
To rise against no man  
To surrender if we can  
To be a derelict of talk  
And walk around the block  
Warm shelter, warm toast  
Soothe me love

## **THRESHOLD**

Thank you spirit of life  
For the view of right  
To come before his presence  
And humbly submit to his will

Strength and purpose cause me  
To open up and be me  
And rectify the truths  
So carelessly put asunder

Praise be to good thinking  
Praise be to right living  
Praise be to health  
God truly cares for us all

To be or only to wish  
To dream or only to imitate  
To breathe or die wishful  
To contend with ourselves

## **YOU'RE NOT ALONE HERE**

Reckless love lost savage  
Born into a world of woe  
To see only a glimmer of perfection  
You're not alone here

Cause now to be free  
Your body, mind, and soul  
Born again to see  
Love's everlasting gift to hold

Now dry your eyes with dewdrops  
And sprinkle the dry dust  
To splendor or refrain from living  
And die beneath the lust

Corruption of a baby's strength  
The will to be essene  
Gone with fickle frolicking  
Of stars and movie queens

Unconscious patterns appear  
So correct me if I'm wrong  
To live a life of evil truth  
Or wicked lies of love

Born to deceive the Lord  
Of hate and bigotry  
Death to all the fallen angels  
To gaze upon this scene

Why are you questioning your mind  
Are you not for me  
To love, love, love  
Peace, Jesus Christ

Wishes are blessed with spirit  
All prayers find ears  
Come into your Father's light  
To sing a gentile melody

Find yourself alone with fear  
And no one left to turn  
Around the wheel of birth and death  
Like a ferris wheel

We are never alone  
So, hallelujah, praise God

## **THE MESSAGE I BRING**

Do you really want to know the truth  
Do you really want to sing  
Do you know who I am  
And the message I bring  
Would you, if you could  
Open each and every door

## **PEACE, PEACE, PEACE**

Jesus Christ, Son of God  
Wear our sins as a mantle  
Live for us  
How I love you  
You who God loves  
Glory to your name

Sing my heart if you care  
To be with your God  
On the judgment day  
We shall see how we are  
God loves the son  
Peace, peace, peace

Sing for me  
I want you  
Live for me  
I will live with you  
Work with me  
I'll work for you  
Oh, my Lord

## LIKE CLOUDS OVER THE MOUNTAIN

Like clouds over the mountain  
My sins cover my heart  
And my breath gets shallow  
Lord, I turn to you

Still in the most terrible storm  
Life goes on  
And all nature sings praises to God  
So naturally I praise thee too

All those who are sleeping  
Wake them Lord with your merciful hand  
Remove the stumbling block  
From the path of men

Gently show us your loving plan  
To live in a world of love  
Like the ocean's restless tide  
Free us from our wild desires  
Care for your lost sheep  
Oh Lord, hear our cry

Return to us our self-worth  
The wonders of this life  
The appreciation of the child  
Open up our eyes

Tear down the false teachings  
That make us blind and cruel  
Oh, sweet master Jesus  
We long to know the truth

We breathe and sleep peacefully  
Sheltered from the storm  
Like clouds over the mountain  
Covered by the Lord

From sin and death  
Guilt, greed and selfishness  
He made a new life for me  
And God is love

## **IT'S HARD FOR A KING TO SURRENDER**

Spirit is spirit and flesh is flesh  
It's a delicate pose  
The one embraces the all in all  
To your own heart be true  
But it's so hard for a king to surrender

## **A GIFT FROM THE FATHER**

Tarry in the city of Jerusalem  
Until you receive power from on high  
The spirit of truth and comforter  
The gift from the dayspring on high

Behold he sends the promise of the father  
The gift of eternal life  
That you might understand the scriptures  
That you might receive your sight

The Holy Ghost shall come upon you  
Repent and be baptized everyone of you  
In the name of Jesus Christ  
You shall receive the gift of the Holy Ghost

## **BORN INTO THIS LIFE**

Born into this life  
Free to be what we want to be  
Run and sing, let it ring, butterfly

You earned the right  
The very moment that you arrived  
Hey, run and sing, let it ring, touch the sky

## **ESSENCE**

Perhaps the essence of life  
Is to be alone with your sorrow  
To share faith in loving something  
Greater than yourself

## **CALL IT A MIRACLE**

I'd call it a miracle  
The way people get together these days  
Joining hands and singing  
The songs of their faith

And then the light comes down  
And fills their souls  
With something wonderful  
Greater than gold

The one who unites us all  
In harmony  
Now we're feeling the love  
We could only see

So, join together in love  
Peace to us all  
It's not just for us  
It's in service to us all

And when you find a way that works for you  
There's really nothing you really must do  
Just open up to His love  
And follow through

So, let's all take a breath of this air  
The sacredness of this life  
The love we can share  
So join together in love  
Peace to us all  
It's not just for us  
It's in service to us all

## **LOTS TO GIVE**

Incarnations of a magical note  
Our song will greet the sky  
Resting on the wings of a bird  
To sail into the open mind

Through the meetings of helpless ones  
Born to believe in trembling love  
It won't be long we'll set the sun  
Going down in our minds

We've got a steady roll  
It's a plain straight shot  
We're traveling those starry roads  
In the diamond sky

Greetings hail the goer  
Time cannot hold  
You just don't stop the river's flow  
It just goes on and on

Lots of reasons to love you  
We've got so much to live  
It'll just go and show you  
And make us happy as we give

I call on the spirit of temperate times  
C'mon and shine into our lives  
We're feeling love's dream inside our minds  
Come into our lives

We've got a steady roll  
It's a plain straight shot  
We're traveling those starry roads  
In the diamond sky

## **FREE YOUR MIND**

Well I'm laying my life on the line  
Just this one more time  
I know that we're doing fine  
But I think we could do better if we try

And if you free your mind  
Well then you might free mine  
And if you free your mind  
Well then you might free mine

The sun's going to rise tomorrow  
And we're going to open up our eyes  
To a bright new world  
And all the people coming alive

To see all the sights before them  
With their brand new eyes  
Living out their dreams  
With the feelings deep inside

And maybe hear a song  
Of nature just rolling along  
Oh, of wonder and awe  
We're lost in the all and all

And if you free your mind  
Well then you might free mine  
And if you free your mind  
Well then you might free mine

And if you free your mind  
Free your mind  
Free your mind  
Free your mind

## **STAIRWAY TO HEAVEN**

Well I know you've been lonesome  
Cause we're all the same  
And I know where we're going  
And the distance is great

Ain't it hard to see  
Doing circles around the bar  
So hard to believe  
That we're shooting for a distant star

Just wanting to touch your heart  
Hoping my song would reach you  
I ain't got much, it's only a thought  
I'm hoping my song will reach you  
And build a stairway to heaven

I'm setting out to discover these things  
Hoping some day to teach you  
I ain't got much, it's only a thought  
I'm hoping my song will reach you  
And build a stairway to heaven  
Just for you my loves  
And build a stairway to heaven

## **USE THEM HANDS**

Use them hands in the morning  
Use them hands people  
Use them hands in the morning  
Use them hands people

Build it up a little brighter  
Build it up a little better  
Build it up a little stronger

Black and white, red and yellow  
All the colors of a rainbow people  
Cross that river that keeps us apart

Use them hands in the morning  
Use them hands people  
Use them hands in the morning  
Use them hands people

Eternity, humanity, eternity, humanity  
Hanging around  
Hanging around

Use them hands in the morning  
Use them hands people  
Use them hands in the morning  
Use them hands people

Do it for the children, do it for yourself  
It's a gift, it's a gift  
It's a gift, it's a gift

## **I CAN'T COMPLAIN**

Well you can cry if you want to  
And sigh if you want to  
Find a reason to be blue  
And let the world trouble you

But I'm living the life I choose  
Doing things I want to do  
Like spending time here with you

Now some would rather see  
Pain and misery  
Lost on a wheel of grief  
With their loneliness and agony

But I'm living the life I choose, I can't complain  
Doing things I want to do, I can't complain  
Like spending time here with you

And you can fly if you want to  
And have a good time if you want to  
Doing things you want to do  
And loving what you do

Hey what's the worry  
You say that your vision is blurry  
And you just don't see  
All the love that's supposed to be

Well, if there's something that I might do  
To shine a little light on you  
And help you make it on thru  
I'll sing this song for you

## **AIN'T LOOKIN TO FOOL YA'**

Think, use your mind  
Feel, it's in your heart  
Hear, what I say  
Be in love today

Rock, hard as stone  
Fire, keeps us warm  
Heaven, sure as hell  
C'mon people make this world

I ain't looking to fool ya  
There's really no loss or gain  
Just a world made for living  
From the mountain to the plain

Serious, if it's the time  
Happy, all the time  
Pleasure, loss and gain  
Now you hear, what I say

And see, there is no end  
Leaving, it's sure my friend  
Now's, the time to spend  
Cause we might never meet again

I ain't looking to fool ya  
There's really no loss or gain  
Just a world made for loving  
From the mountain to the plain

## **MORE THAN THE SUN**

Woman I need your love now  
More than the sun  
Bring your warm body  
Next to mine  
I'm gonna close my eyes to this world  
In the comfort of your sweet love

I've been losing my mind  
Just letting it go  
And thoughts of you  
They keep coming around  
There's a feeling of wholeness here  
Something I can't deny  
Come on in and sit down

So I thought I'd let you know  
Before I pass on  
About the times  
When a man needs someone  
Someone to open up his eyes  
Someone to comfort him when he cries

## FAIRY PRINCESS

Fairy princess, come now wave your wand, wave your wand  
Make my world so beautiful  
You've got the power to mold me  
Into the trees, the moon, the sun, the stars, the sky  
River rolling, ocean so deep, so wide  
You've got that power to unfold me

Fairy princess, come now wave your wand, wave your wand  
Make my world so beautiful  
You've got the power to mold me  
I trust your love so much  
I trust your love so much, I'll be like putty in your hand

So don't make me crazy  
Don't you make me so crazy sometimes  
With your wand, with your wand  
After I trusted your love so much  
Like putty in your hand

Fairy princess, come now wave your wand, wave your wand  
Make my world so beautiful  
You've got the power  
You've got the power  
Turn me into the trees, the moon, the sun, the stars, the sky  
Rivers rolling, ocean so deep, so wide  
You've got the power  
Fairy princess, come now wave your wand, wave your wand

## MY HEART IS EMPTY

My heart is empty  
Fill my mind with song  
I'm old as the sea  
Young as a flower

The birds sing a song  
The children sing along  
I know another one  
I'm going to help  
Anyone who cares  
To sing a song of loving you

These women just don't care  
I'm loving the thin air  
Still I see you everywhere  
I'm going to help  
Anyone who cares  
To sing a song of loving you

My heart is empty  
Fill my mind with song  
I'm old as the sea  
Young as a flower

Still I'd hope and I'd pray  
To live these words I say  
I'm going to help  
Anyone who cares  
To sing a song of loving you

## **BLOOD AND GUTS**

To love another freely  
For passions play under our sun  
Rainbow visions of love to come  
To our tired aching bones  
To our willing aching bones

We go on our own way  
To set our sights on the form  
Of laughter, tears, and believing  
Knowing love will come

Willingly we leave this place  
Now that we know the score  
Splitting ties of blood and guts  
You take mine and I take yours

Learning loves little secrets  
The tears and the joy  
The strength of a knot that binds  
And the spirit that unties

So don't be afraid  
You learn as you go  
It's not such a lonely road  
To strike out on your own

## **GARDEN ROSE**

Come on honey  
Come on sugar  
I can see the sunshine in your eyes  
You got the spirit  
At least ya' live it  
I feel the love runnin' thru your heart

When you go walking through the garden  
The birds sing a sweet hello  
All the roses send a fragrant sigh  
To the prettiest flower they know

I'm just watchin' as you go by  
Seeing the gift that you bring  
You're a gypsy who knows her way along the garden roads  
Feels like the sweetest path I've ever known

Could you find a place in your heart  
To rhyme your beats with mine  
So as we go  
I can see the world thru your eyes

When you go walking through the garden  
Would you stop to see the rose  
That's bending its back just to see you  
Watchin' you dancing as you go

Come on honey  
Come on sugar  
I can see my reflection in your eyes  
You got the spirit  
At least ya' live it  
I feel the love runnin' thru your heart

## **SAILING ON THE OCEAN**

Sailing on the ocean  
Sailing me alone  
Sailing on the ocean  
I ain't got nobody to call my own

But I'm gonna love you  
I'm gonna think of you  
Sailing on the ocean  
Alone

## INTO THE ONENESS

Retreating into the oneness  
Of a melody of you  
Roll me in leaves gently falling  
From the trees to the glistening dew

Oh lover, come and hold me  
Take me deep into your womb  
Take me to the open window  
Keep me in the sight of beauty

Moonbeams over my shoulder  
Glimmering magical moments of you  
Loving deeply penetrating  
Breath of me, breath of you

Fragrant smells of your body  
Consume me in your fire  
Take me to the open window  
Keep me in the sight of beauty

Dream lover can you hear me  
Sweet angel be near me  
Take me to the open window  
Keep me in the sight of beauty

Moonbeams over my shoulder  
Glimmering magical moments of you  
Loving deeply penetrating  
Breath of me, breath of you

## **SISTERS OF LIFE**

When you trade your diamonds  
For a moonlit night  
That's when I'll come running to your door  
We could be so happy together  
In a love that's right  
Who could offer you more

I need you in my life  
Won't you open up your heart  
Then you might see an eagle fly  
And peace on the wings of a dove

When you see me on the street  
My eyes filled with tears and strife  
When you're thinking no thoughts at all  
Then I shall enter into your door  
And never shall it close anymore

See you smiling sweetly  
Into the sun  
And the flowers in your hair  
Walking together to a special place  
You always told me that you would take me there

## **SOMEBODY'S HEART IS BEATING**

It's late in the evening  
The city is dark everybody's sleeping  
I'm shivering dreaming... alone  
The lights have fallen to the ground  
The city is dark there's nobody around

Somebody's heart is beating  
Somebody's love lies sleeping  
Somebody's heart is beating  
Somebody's love lies sleeping

People everywhere waiting for the dawn  
Lost in old love that broke down, down, down  
Tell me now, who's going to be the one to bring in the sun  
Lifting higher, higher, and higher those dreams to come

Heartfelt rhythms of two made one  
Fragrant patterns of unfolding love  
No expectations of things to come  
Just loneliness gone with the sun

Somebody's heart is beating  
Somebody's love lies sleeping  
Somebody's heart is beating  
Somebody love somebody please

Then I realized I was only scheming  
I awoke and found I was dreaming  
Listening to the sound of my heart beating  
Waiting for the dawn

## LIVING IN THE CITY

I'm living in the city  
And I think the sidewalk is hard on my feet  
But I keep on, keep on, keep on,  
Keep on doing my thing

Little girl wakes up in the morning  
She says, I'm hungry, I'd like something to eat  
So I keep on, keep on, keep on  
Keep on doing my thing, nine to five

But you know it was just this morning  
I saw the prettiest thing in this whole wide city  
A dandelion growing up out of the sidewalk  
Yellow like the sun, just smiling on everybody

So I picked up that flower  
And I brought it home to my little girl  
She put it in her hair, looked in the mirror, started dancing around  
She said, I'm so pretty

Little girl says she's pretty  
Thank you daddy for bringing home all these good things  
Thanks for the flower  
And you know my life's got to be worthwhile

I'm living in the city  
And I think the sidewalk is hard on my feet  
But I keep on, keep on, keep on  
Little girl says she's pretty, and my life's worthwhile

## **LOVE NEVER DIES**

I have seen with my eyes  
And put an end to alibis  
And I have heard with my ears  
The voices of angels loud and clear  
And the song that echoes in my mind, love never dies

I found a flower in the sand  
And held it tightly in my hand  
But somehow I just broke the stem  
And the petals are lost in the wind

And it seems like a million years  
Since I last wept in tears  
And shouted out in anger and fear  
When will I, where will I, who am I, alone

And if it takes a million years  
And a lonely river of tears  
I pray that we all may find  
Love never dies

## **I CHECKED MY HEELS**

I walked your city, I spent my time  
I dreamed my dream, that love I'd find  
I was walking, just to see  
That there was something, something meant for me

Now I need new shoes, and a life to lead  
In this here hotel, I get what I need  
I checked my heels, just to see  
If the road I traveled was just a dream

This road I travel, it's a change of scene  
Like my friends, and the life I lead  
I checked my heels, just to see  
If the road I traveled was meant for me

I'm not asking to receive  
I'm just walking, trying to believe  
I checked my heels, just to see  
If the road I traveled was just a dream

## **LET YOUR TEARS WASH OVER ME**

When you're sad and lonely  
Candle's burnt at both ends  
Feeling old and worn  
Died but not born again

We all were little children  
Clean and gentle as the lamb  
Jesus, I know you hear us  
Have mercy on the house of man

Deep in someone's heart  
Meaning well but blind to see  
Almost home, but not quite  
Let your tears wash over me

This world takes us traveling  
Sometimes on a crooked path  
Show us the way straight and narrow  
Lead us home once again

We're on our knees for mercy  
We're praying to make amends  
Jesus, I know you hear us  
Have mercy on the house of man

Deep in someone's heart  
Meaning well but blind to see  
Almost home but not quite yet  
Let your tears wash over me

## **THE RIVER'S RUNNING**

Oh, sweet Jesus  
Let your water wash down  
This world's full of people  
So very lost, just looking to be found

The river's running  
And I pray it don't pass us by  
The faces of the children  
Looking for the love and the life

Well, what have we got to show em'  
How do we help grow em'  
Show us the life  
Show us what's right

And we sing hallelujah  
Glory, glory, hallelujah to our Lord  
And we sing hallelujah  
Glory, glory, hallelujah to our Lord

## **HE IS THE KING**

Come all you lonely and weak  
Unto the strength of the king  
And He will shower you in peace  
The Lord Jesus Christ

And how many times have you cried  
Well he will dry your eyes  
And give you a song to sing  
He is the king

Won't you let Jesus into your life  
It was for us that he died  
Rebirth in Jesus Christ  
He is the King

## **FIRM FOUNDATION**

He's a firm foundation  
He's the rock of ages  
On a psaltery and a harp  
Hear the angels sing

Ain't no son or daughter  
Ever walked on water  
Let Jesus be your light  
And show you the way

Teach us how to pray  
You'd hear em say  
It's written in the book  
In the old time days

And when I get to heaven  
I won't be regretting  
When I'm listening to  
Those angels sing

He's a firm foundation  
He's the rock of ages  
On a psaltery and a harp  
Hear the angels sing

Ain't no son or daughter  
Ever walked on water  
Let Jesus be your light  
And show you the way

## **KEY TO HEAVEN'S DOOR**

Well, if you want to get to heaven my friend  
You better find the Lord Jesus  
He's the only one who's got the key  
To heaven's door

He's the good shepherd  
He watches over the children  
He'll watch over you and your house too  
He's the Lord

So don't you gamble on heaven my friend  
That's a sure thing, that's Jesus  
He'll save you and your house too  
He's the Lord

So if you want to get to heaven my friend  
You better find the Lord Jesus  
He's the only one who's got the key  
To heaven's door

## **THE WEDDING SONG**

Holy is my Lord who brought you to me  
He can do no wrong  
Only say that you'll abide with me  
Until our Jesus comes

Rainbows and dewdrops are in my morning  
And I can sing life's sweet song  
And as we go on together  
I know we'll never be alone

Precious Jesus, help us live and grow  
Good Lord, thy will be done  
Keep us faithful as we go  
A family blessed in God's love

Rainbows and dewdrops are in my morning  
And I can sing life's sweet song  
And as we go on together  
I know we'll never be alone

## **DAYLIGHT**

Daylight, born again reborn  
In the presence of the Lord  
Welcome, welcome the son of man  
With a sword in his hand

He'll be coming in a cloud  
And a trumpet's going to sound  
Have your way  
Have your way

Home, I'm coming home  
It won't be long  
I'll sing my song  
Have your way

## **ENTER INTO THE JOY OF THE LORD**

Enter into the joy of the Lord  
All you lonely people  
Ain't got nobody at all  
Enter into the joy of the Lord  
All you weary travelers  
So tired of looking for love

Believe on me  
And you will be saved  
I would never turn you away  
Listen to these words that I say  
Enter in  
To the joy of the Lord

Enter into the joy of the Lord  
All you mothers and fathers  
Who lost sons and daughters to this world  
Enter into the joy of the Lord  
All you little children  
When mommy's working you're all by yourself

Believe on me  
And you will be saved  
I would never turn you away  
Listen to these words that I say  
Enter in  
To the joy of the Lord

## **THERE'S A BATTLE GOING ON**

Money in my pocket  
Fire in my soul  
There's a battle going on  
Money in my pocket  
Fire in my soul  
There's a battle going on

You took me to the devil  
To lie and tremble  
It's going to take a lot of shaking  
To turn me loose  
Where's that light shining on the road?  
It's coming out of heaven's stronghold

Treated mom and dad  
Just like a fool  
There's a battle going on  
Treated mom and dad  
Just like a fool  
There's a battle going on

Fire, fire  
Get down on your knees  
Good Lord Jesus  
Now's the time to be  
Where's that light shining on the road?  
It's coming out of heaven's stronghold

## **FATHER**

Something was missing I had to find  
Well nothing I did seemed to turn out right  
I had a house, but not a home  
And I got so tired of being alone

I was born of dust and sand  
In flesh and blood I became a man  
Of sin  
Time and time again, I tried

Father come and take my hand  
Jesus, lead us home again  
And brothers, help me to make a stand  
For me and you

Well now I'm home again  
And Jesus, he's my friend  
And I've got brothers to help me make a stand  
And thank you Jesus, for you

## **YOU ASK HIM FOR THE WORDS**

You ask him for the words  
Is that something that you heard  
To make you feel alright  
And bring light to your darkest night  
He wants to be by your side  
He loves you

You ask him for a turn  
Well, go on take your turn  
There's a fire on earth  
And it sure does burn  
And everyone is going to learn  
That when the feeling is right  
And when the timing is right  
He wants to be by your side  
He loves you

## **WAIT FOR THE SON MY HONEY**

Wait for the Son my honey  
Wait for the light of the day  
Wait for the Son my honey  
Jesus will show you the way

And it's hard to wait a little while  
When your life moves so fast  
And it's hard to wait a little while  
When the feeling is it just won't last

Wait for the Son my honey  
Wait for the light of the day  
Wait for the Son my honey  
Jesus will show you the way

And it's hard to wait a little while  
When your dreams move so fast  
Just live a live a life that's good for you  
And Jesus will bring it all to pass

## **SEEDS OF THE GOLDEN ONE**

Son of life, son of love  
Like the open sea  
Filling up with heaven's rains  
Through eternity

Fertile seeds of a golden son  
Cared for with utmost love  
We spread the dust of the stars  
In infinite boundless love

Born to live out our lives  
Stars for the world to see  
Seeds of the golden one  
Heaven's a reality

## **BEHOLD THE MAN**

Son of life, son of love  
Like the open sea  
Filling up with heaven's rains  
Through eternity

John was baptizing at the Jordan  
Repent the kingdom of heaven is at hand  
I am unworthy to latch his lace  
Behold the man!

Born to live out His life, a star for the whole to see  
Jesus Christ, the Son of the Living God, made heaven a reality  
John was baptizing at the Jordan  
Repent the kingdom of heaven is at hand  
I am unworthy to latch his lace  
Behold the man!

## **JESUS IS LORD**

Little boy on the corner, one day you'll be a man  
And give to your children, all the love you can  
Riding on your tractor, playing in the forest  
Little blue eyes, staring at the sunrise  
And John doesn't read or write so well but God loves him just the same  
And gives him peace and happiness, and life in His name

Be good to your mother, watch out for your brother  
Listen to your Father, hold your Savior's hand  
He's the Rock of Ages, the end of the rainbow  
God's Living Water, take a drink from His hand  
And I want all the world to know all about this man, Jesus is Lord, Jesus is  
Lord

## **PRAISE THE LORD FOREVER AND EVER**

Praise the Lord forever and ever  
Lift your hearts and come together unto the Lord  
Lift your voices let them ring  
Glory to the newborn king inside your hearts

Jesus Christ, the King, the Lord of Life  
Jesus Christ, the King, the Lord of Life

You can have eternal life come and be with Him tonight  
He'll fill your cup  
Lift your voices let them ring  
Glory to the newborn king inside your hearts

Jesus Christ, the King, the Lord of Life  
Jesus Christ, the King, the Lord of Life

## **HARD AS STONE**

Think, use your mind  
Feel, it's in your heart  
Hear, what I say  
And be in love today

Cause a rock, it's hard as stone  
And a fire, keeps us warm  
Heaven, sure as hell  
Jesus Christ has come into the world

I ain't looking to fool you  
There's really no loss or gain  
Jesus died for everybody  
Everybody one and the same

See, there is no end  
Leaving, it's sure my friend  
And now, is the time to spend  
Cause we might never meet again

I ain't looking to fool you  
There's really no loss or gain  
Jesus died for everybody  
Everybody one and the same

## **EVERYBODY'S TO BLAME**

And it's everybody that is to blame  
For all of the people gone insane  
The temptation that's blinding you and me  
Lord Jesus please

Somebody sold his brother  
And somebody hated his mother  
It's time to love one another, this I know  
I don't want to go without my Lord

We all try so very hard to see  
If it's you or if it's me  
And just who has the key  
I don't care anymore, open up the door

Holy Ghost  
God's Heavenly Host  
There's angels watching over me, this I know  
I don't want to go without my Lord

And when we're off of our knees  
Will we still be trying to see  
If it's you or if it's me  
I don't care anymore, open up the door

Holy Ghost  
God's Heavenly Host  
There's angels watching over me, this I know  
I don't want to go without my Lord

## **HIS HOLY NAME**

My Lord, His holy name  
My Lord, His holy name  
Jesus, Jesus, My Lord

My Lord, His holy name  
All heaven, and earth proclaim  
Every knee shall bow, every tongue confess, My Lord

## **MY LORD MY LIFE MY OWN**

My Lord is like the wind, he knows no bounds  
Wherever you ask Him in, there love can be found  
Like a mighty rushing wind, the Lord will enter in  
Until all love abides within, then you will know

My Lord, my life, my own  
My Lord, my life, my own  
My Lord, my life, my own

My Lord is like the sun, shining down on everyone  
And making things to grow, like the love that each of us wants to know  
Seeking that which was lost, Jesus paid the cost  
It's more than what we thought, it's by His blood we all are bought

My Lord, my life, my own  
My Lord, my life, my own  
My Lord, my life, my own

## **THANK YOU JESUS**

Well thank you Jesus, thank you Lord  
Well thank you Jesus, thank you Lord  
You came down to where I was

You forgave my sins, you said start again  
Now you've got a friend, who'll never leave you  
Until the end of heaven and earth

You gave me life, a home and a wife  
You said start again, now you've got a friend  
You came down to where I was

## **COME INTO THE LORD'S HOUSE**

Come into the Lord's house  
Enter into his holy place  
Sing praises to his name  
Always

Because there's love in the Lord's house  
And there's life eternally  
Sing praise, sing praise  
Sing praise to his holy name

Because there's love in the Lord's house  
And there's life eternally  
Sing praise, sing praise  
Sing praise to his holy name

Come into the Lord's house  
Enter into his holy place  
Sing praises to his name  
Always

Because there's peace in the Lord's house  
And there's joy forever more  
Sing praise, sing praise  
Sing praise to his holy name

Because there's peace in the Lord's house  
And there's joy forever more  
Sing praise, sing praise  
Sing praise to his holy name

## **THE SPIRIT YOU EMBRACE**

Come on brother if you will  
The spirit you embrace will cure your ills  
I see you so near to me, so dear to me  
Let's make it

We've been believing for so long  
And you know  
That it can't be wrong  
I see you so near to me, so dear to me, let's make it!

The power of his word  
It's clearly shown  
The peace, the love, claim it for our own  
I see you so near to me, so dear to me, let's make it!

Come on brother if you will  
The spirit you embrace will cure your ills  
I see you so near to me, so dear to me  
Let's make it

## **ACCEPT HIS LOVE**

Jesus died to save you  
But you've got to accept his love  
They nailed him to the tree  
And out came the water and the blood

Oh, He will never leave you  
And He will always receive you  
And He will set you free  
But you've got to accept his love

We were looking for the answer  
And now it's finally come  
Open up your hearts to him  
Welcome in the father and the son

Oh, He will never leave you  
And He will always receive you  
And He will set you free  
But you've got to accept his love

Oh please, accept his love

## **RESURRECTION #9**

They hung my savior on a cross to die  
I don't believe any of them really knew why  
But that's the way he gave his life

Evolution, revolution  
There is only one solution  
Jesus died for you and me  
It's Jesus' blood's gonna set us free

Satan I cast you out  
The love I've found leaves me no doubt  
Jesus died to set us free  
It's Jesus' blood's gonna set us free

Introspection, resurrection  
Jesus Christ is perfection  
Everything you long to see  
Everything you hope to be

## **COME ON DOWN TO THE WATER**

Hey, come on over  
All your friends will be there  
Come on down to the water  
Wash away your cares

Come on down to the water  
Jump right in if you oughta  
Hey, loving is easy  
Yes, living is easy

Come on take a chance  
It's time for a little romance  
Yeah, it's the same old story  
Use the means, you get the glory

Come on take a chance  
Get out on the floor and dance  
You say that you're feeling stage fright  
I know you never even did try

Come on down to the water  
Jump right in if you oughta  
Yes, living is easy  
And some of us do see

Hey, come on over  
All your friends will be there  
Come on down to the water  
Wash away your cares
